

A Shattered Nervous System.
FINALLY HEART TROUBLE.

Patented to Health by Dr. Miles' Nervine.

MR. EDWARD HARDY, the jolly manager of Sheppard Co's. great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried out local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Nervine is sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

NINE LIVES LOST.

Burning of a Tenementhouse at Charleston, S. C.

Charleston, S. C., Feb. 26.—Nine lives were lost in a fearful fire which raged for a short time in Church street this morning. A policeman noticed big sparks flying from a tenementhouse. The officer found that a blaze was issuing from one of the windows on the first floor. The doors were broken open and the family on that floor were rushed out without any damage. Slightly injured, a family of women were sleeping on the third floor.

The police rushed upstairs, and when they reached the story the life-saving work was stopped by the flames, which seemed to be playing over the entire building. Screams from dying women were heard and Officer Bagby rushed in and pulled out three charred bodies. The quick work of the fire department checked the fire and it was soon under control, but not until nine lives on the third story had been lost. The dead: MRS. REBECCA KNICKMEYER AND SIX CHILDREN. ALBERT O'NEAL. CASWELL O'NEAL.

BRITISH FLAG.

Canadian Mounted Police Said to Have Raised One Near Skagway.

Seattle, Wash., Feb. 26.—The schooner Noyo which has arrived here from Skagway, Alaska, brings news which, if true, will probably cause international complications. Parties arriving at Skagway before the Noyo left circulated the report that the Canadian mounted police had raised the British flag at Summit lake, which is 20 miles from Skagway and 14 miles inside of the American boundary, as at present defined. Captain Lindquist of the Noyo says the report had not been verified when he left Skagway and that he places but little credence in it.

The Noyo also brings news of many deaths on the White pass resulting from cold and exposure. On Tuesday, Feb. 15, the bodies of five men who had died on the trail were brought to Skagway. It was impossible to learn the names of any of them. All died from what is called cerebral spinal meningitis, which is quite prevalent in Skagway and along the trail. It has its origin in exposure and a lack of sufficient clothing to withstand the severe cold.

The Noyo also brings news of three Dawsonites, who stopped at Juneau. They were James Brownell, Frank Laro and T. B. Flint. They are reported to have brought out about \$20,000 of gold dust and drafts from the interior. Stormy weather was encountered by the Noyo. Thirty-one vessels were passed bound for the north.

Mrs. Northside was telling about the trouble Mrs. Manchester was having with her maids and was apparently taking much pleasure out of her difficulties. "You should not be glad because Mrs. Manchester is in trouble," said Mr. Northside. "You should remember that the Bible says, 'Rejoice not when thine enemy falleth.'"

"Oh, that's all right!" replied Mrs. Northside briskly. "Mrs. Manchester isn't an enemy at all; she is my dearest friend." —Pittsburg Chronicle-Telegraph.

When love

knocks at a woman's heart he usually comes in disguise. That is pretty nearly what he's up to. If she knew all about the little race, she would let him in? That's a question.

Women are apt to look upon love and marriage as purely a matter of sentiment and affection. That is pretty nearly right; yet there is a practical side to it too; and the best way to preserve the ideal aspect of marriage and maternity is not to forget the practical part of it. A woman cannot be a thoroughly happy wife and mother unless the distinctive physical organism of her sex is in a healthy and vigorous condition. The best friend that woman ever had is the "Favorite Prescription" of Dr. R. V. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. The "Prescription" is a perfect and infallible remedy for every form of female weakness. It cures by restoring health and strength to the internal organism, which cannot be reached by "local applications"; thus the cure is radical, complete and constitutional.

Dr. Pierce's eminent reputation as a physician of wide learning; and his special knowledge of the delicate and intricate organism of women, accounts for the unparalleled confidence, which women place in his "Favorite Prescription" over every other remedy. Its use obviates the necessity of dreaded "examinations" and the stereotyped "local treatments."

Dr. R. V. Pierce, Dear Sir—I suffered fourteen years with female weakness, nervousness and general debility, trying everything I could find to help me—all to no avail. I then heard of Dr. Pierce's medicine and although I was thoroughly discouraged, I thought I would try once more to find relief. I took your "Golden Medical Discovery" and "Favorite Prescription," and to my great surprise cannot but feel the rapid relief they gave me. I am now free from the former troubles. Very sincerely yours,

(Mrs.) Mary J. Stewart.

NO SUBMARINE MINES

Official Statement That Havana Harbor Is Without Them.

EVIDENCE IS NOT CREDITABLE

One Way or the Other as to the Cause of the Maine Disaster, Says the Administration—Government at Contracts For 200,000 Tons of Coal For Southern Ports.

Washington, Feb. 26.—In view of the widely published report that the harbor of Havana contains a system of submarine mines, a statement around which has centered the chief public interest in connection with the disaster to the battleship Maine, Senator Du Bose, Spanish charge d'affaires at Washington, last night made public the following statement, which, coming from such authority, may be considered as an official denial:

"I wish to state on my own official knowledge that no mine exists inside or outside of Havana harbor, nor is there any submarine defense of any kind. The report is absolutely false and ridiculous and it could only have originated in the minds of those persons anxious to incite the evil passions of both nations for their own miserable ends. I consider the very suggestion of such a thing an insult to Spain."

NO CREDITABLE NEWS.

Administration Has No Information as to Cause of Maine's Explosion.

Washington, Feb. 26.—In spite of the stories that come from unofficial sources in Havana as to sensational developments in connection with the work of divers in the Maine's hull, the administration remains firm in its statement that there is no creditable evidence one way or the other as to the cause of the disaster, and holds to its purpose to await the conclusion of the investigation now making by the court of inquiry. This position was emphasized at yesterday's cabinet meeting. The members without reservation frankly admitted that the subject of the loss of the Maine had been discussed, but said the government had received no information from Havana and had no intention of changing its policy until there was something of substance to warrant it.

Secretary Long has been under a heavy and almost constant strain ever since he was awakened in the middle of the night a week ago last Tuesday by the news of the loss of the Maine, and now that matters are, at least for the time being, in a quieter state he has withdrawn from the navy department or gone away for a few days rest, leaving Assistant Secretary Roosevelt to manage the department.

The latter has been thoroughly advised at every step of the secretary's policy of treatment of the Maine affair so that there is not likely to be any change in that respect caused by the temporary assumption of the duties of secretary by Mr. Roosevelt.

Since so much depends upon the report of the court of inquiry it may be interesting to note that so far Secretary Long does not know when to expect this important document, up to this time having heard nothing from any of the members on this point. He rather expected the court, which has complete power to work on its own lines, would wind up its work at Havana before leaving, so as to avoid the necessity for a return trip.

One member of the cabinet had a more definite opinion on the subject, expecting the receipt of the report from the court about the middle of next week. At the Spanish legation a dispatch was received late yesterday from General Blanco referring to commercial questions and mentioning incidentally that no change of any kind has occurred in affairs at Havana. General Blanco's latter statement, it is believed at the legation, refers to the lack of definite and trustworthy news pending the private inquiries now being conducted by the American and Spanish authorities. In view of this attitude of those whose official position gives them the best opportunity for full information, Senator Du Bose and his associates do not credit the reports of discoveries tending to establish the cause of the Maine disaster.

NEW YORK HARBOR.

Precautions Being Taken to Make East River Entrance Invaluable.

New York, Feb. 25.—At Willet's point precaution is being taken to make the East river entrance to New York line invulnerable. A so-called skirmish line of torpedoes is projected from the Willet's point shore across the channel to Fort Schuyler. The torpedoes will be anchored so close together that it may be made impossible for a hostile vessel to cross the line without being blown up. The engineers have arranged to have batteries located at each end of the line so that in case an apparatus was used by the enemy to sever the connecting wires and break the circuit, the torpedoes still could be exploded from either end of the line. The channel is already protected from Willet's point shore by two groups of submarine mines. Each group of the mines consists of 22 torpedoes, 44 together containing 120 pounds of giant powder.

Cannot Be Exhausted.

Washington, Feb. 26.—The friends of the victims of the Maine disaster have discovered that they cannot have their bodies brought to this country in cases where they have already been interred. This is due to the fact that the Spanish laws forbid the exhumation of corpses until the expiration of the period of five years after burial. The prohibition had its origin in the fear of infection from contagious diseases.

BRIEF NOTES.

Fountainstown, Ind., is now a dry town. The Fulton steam boilerworks at Richmond, Ind., is said to be financially embarrassed.

Captain Henry Fyrian of Bowling Green, O., a veteran in the late war, has committed suicide.

Burglars smashed in the show window of a Haddleton (Ky.) hardware store and secured eight revolvers.

Thomas Hannon, who shot and killed William Hall at Paducah, Ky., has been sent to jail on a murder charge.

The Ravenna (O.) shoe company has shut down indefinitely. Over 100 employees were thrown out of work.

John H. B. Cox, near Westfield, Ind., was seriously injured in a runaway accident, several ribs being broken.

General Reuben Williams of Warsaw, Ind., will soon have completed a half century of active newspaper work.

A gray wolf has killed a number of sheep in the vicinity of Matthews, Ind., and a wolf-hunt is being organized.

I. O. O. F. lodges of Madison county, Ind., will endeavor to have Anderson chosen as the site of the proposed I. O. O. F. home.

The law office of E. L. Kazee, together with \$1,500 in books and \$1,800 in notes, was totally destroyed by fire at Paintsville, Ky.

Levi Hoffstetter has been found guilty of burning John Patterson's barn in Brown county, Ind., and George Curtis has entered a plea of guilty.

BROADSTREET'S REVIEW.

Reports For Last Week Among the Best Received This Year.

New York, Feb. 26.—Broadstreets today says: While business of a speculative nature has been quick to reflect the increasing strain in political affairs in reduced values and withdrawals or curtailment of activity in some lines, there is little to indicate that the volume of distributive trade has been reduced, and reports to Broadstreets this week, so far as the latter branch of business is concerned, are among the best received this year.

With few important exceptions the price situation is one of strength, while the enlarged demand for coarse grains is taken to reflect the turning of attention from higher priced cereals to those of a lower price character.

The best report as to the distribution of trade made so far this year comes from the central west. Spring trade there is reported earlier than usual.

Kansas City, perhaps the most important market for agricultural implements in the country, reports the demand exceeding all records, and sales limited only by the inability to deliver orders. Business failures were 183, against 269 last week.

TO KEEP OUT SMALLPOX.

Prison Authorities Arranging to Quarantine Against Infected Districts.

Frankfort, Ky., Feb. 26.—The authorities of the penitentiary are about to quarantine against any prisoners that may be sent here from the smallpox district in Bell, Laurel and other southeastern Kentucky counties. If prisoners reach here and are presented at the prison gates the warden has no power to refuse to admit them, so it will be arranged for the Frankfort authorities to prevent prisoners from that district from entering the city. So if any sheriff from that section contemplates bringing prisoners here he had better take warning and keep them in jail till the smallpox scare is over.

MYSTERIOUS DEED.

Missouri Woman Purchases a Lot in the Middle of a River.

Hamilton, O., Feb. 26.—A deed about which there is mystery has been received by County Recorder Decker. The deed conveys lot 1,620 of the present plat of Hamilton to Caroline Wakefield, and is made by William H. Hutter and wife for a consideration of \$30,000. The indenture was subscribed to before a notary of public of Green county, Mo., where the purchaser lives. There is no such lot number, but according to the description given it would be located in the middle of the Miami river. The recorder will notify Caroline Wakefield of the value of her purchase.

SINKING IN THE MUD

The Wrecked Battleship Maine Is Slowly Settling.

PAYMASTER'S SAFE RECOVERED

Divers Working Hard to Recover the Remaining Bodies—General Lee Has Received No News of Importance From Washington—Board of Inquiry Still at Havana.

Havana, Feb. 26.—The wreck of the Maine is slowly but surely sinking into the mud. Before the hull could be raised it would be necessary to remove the guns and deck debris. For lack of proper appliances practically nothing in this line has been accomplished. Aside from the officers' and cabin effects, the salvage thus far has been pitifully small. The cloudy weather and rain made the work of the divers very unsatisfactory yesterday and very little was done. It is said that a hole has been made by the divers in one of the forward hatches, and it is hoped that a number of bodies will be recovered. The court of inquiry sat longer than usual yesterday and the six divers were examined more in detail than heretofore.

The time of the departure of the Mangrove with the court for Key West has not been determined. Captain Sampson says that it is doubtful if his vessel sails today.

No word has been received at the consular general's office from Walter B. Barker, the United States consul at Sagua La Grande, and it is believed that the reports of Mr. Barker's illness is untrue.

The paymaster's safe, with \$22,500 and his papers, has been taken from the wreck. Beyond this no statement is made as to the value and nature of the contents.

Laboring Hard to Recover Bodies. The complaint is still made that the electric lamps are of little use to the divers, as the light is faint and uncertain, and to hold them takes one of the diver's hands. They have assuredly proved of little value in the present investigation. So far as reports made public go, the workmen on the tug Right Arm, with the assistance of the naval divers, are laboring hard to recover the bodies under the hatch which led to fireproof platforms.

The Havana papers print long extracts from the American dailies, but of course only of delayed news. All the Americans are anxiously awaiting the arrival of mails.

Consul General Lee says he has received no news of importance from the state department nor has he been notified to expect the arrival of anyone of prominence. It is believed here that if any American of national reputation comes to Havana now it will be to study the situation for himself and not as an official commissioner.

There are six wounded left here, and all are reasonably certain of recovery except Holzer. Some difficulty will arise in removing them to the United States, for all have been exposed to contagious fevers, and the quarantine laws forbid their being taken direct to Key West. These regulations were disregarded in the case of the first lot of wounded taken there on the Olivette the day after the explosion, but only because of the extreme exigencies of the case.

Excitement in Mexico. City of Mexico, Feb. 26.—Great excitement prevails here over the probability of a rupture between the United States and Spain. In case of a war the police would have their hands full in preventing collisions, as there are many Spanish and American residents here, some of whom are likely to pick a quarrel.

OHIO BRIBERY CASE.

Senate Committee Has a Telephone Manager Before It.

Columbus, O., Feb. 26.—The senate bribery investigation committee met yesterday and examined Manager Ross of the local telephone company with regard to calls made and answered in connection with Hanna headquarters in the Neal House when he was a candidate for United States senator. The only new development was that Major Dick settled the telephone bills. Not even names of conversationalists by telephone were secured.

GOEBEL ELECTION BILL.

On a Test the Measure Only Gets Forty-Nine Votes.

Frankfort, Ky., Feb. 26.—At the afternoon session of the house yesterday an attempt to abandon the regular order of business and force the passage of the Goebel election, or "force" bill, resulted in the loss of three friends of the measure. On a test vote 51 of the 100 members voted against the measure.

Senate and House.

Washington, Feb. 26.—The senate spent five hours yesterday debating Henry W. Corbett's right to a seat in the senate, then going into executive session before a vote was taken. The house continued consideration of the sundry civil appropriation bill. Mr. Berry succeeded in securing the adoption of an amendment increasing the appropriation for the Kentucky river from \$105,000 to \$350,000.

Mrs. Northside was telling about the trouble Mrs. Manchester was having with her maids and was apparently taking much pleasure out of her difficulties. "You should not be glad because Mrs. Manchester is in trouble," said Mr. Northside. "You should remember that the Bible says, 'Rejoice when thine enemy falleth.'"

"Oh, that's all right!" replied Mrs. Northside briskly. "Mrs. Manchester isn't an enemy at all; she is my dearest friend."—Pittsburg Chronicle-Telegraph.

When love knocks at a woman's heart he usually comes in disguise. Doesn't want it known what he's up to. If she knew all about the little rascal, would she want him? That's a question. Women are apt to look upon love and marriage as purely a matter of sentiment and affection. That is pretty nearly right; yet there is a practical side to it too; and the best way to preserve the ideal aspect of marriage and maturity is not to forget the practical part of it. A woman cannot be a thoroughly happy wife and mother unless she has the distinctive physical organism of her sex in a healthy and vigorous condition. The best friend that woman ever had is the "Favorite Prescription" of Dr. R. V. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. The "Prescription" is a perfect and infallible remedy for every form of "female weakness." It cures by restoring health and strength to the internal organism, which cannot be reached by "local applications." It is the cure is radical, complete and constitutional.

Dr. Pierce's eminent reputation as a physician of wide learning; and his special knowledge of the delicate and intricate organism of women, accounts for the unparalleled confidence, which women place in his "Favorite Prescription," over every other remedy. Its use obviates the necessity of dreaded "examinations" and the stereotyped "local treatments." Dr. R. V. Pierce, Dear Sir—suffered fourteen years with female weakness, nervousness, and general debility, trying everything I could find to help me—all to no avail. I then heard of Dr. Pierce's medicine, and although I was thoroughly discouraged, I thought I would try once more to find relief. I took your "Golden Medical Discovery" and "Favorite Prescription," and too great praise cannot be given for the rapid relief they gave me. I am now free from the former troubles. Very sincerely yours,

(Mrs.) Mary J. Stewart.

NO SUBMARINE MINES

Official Statement That Havana Harbor Is Without Them.

EVIDENCE IS NOT CREDITABLE

One Way or the Other as to the Cause of the Maine Disaster, Says the Administration—Government Not Contradicting For 300,000 Tons of Coal For Southern Ports.

Washington, Feb. 26.—In view of the widely published report that the harbor of Havana contains a system of submarine mines, a statement around which has centered the chief public interest in connection with the disaster to the battleship Maine, Senator Da Bosc, Spanish charge d'affaires at Washington, last night made public the following statement, which, coming from such authority, may be considered as an official denial:

"I wish to state on my own official knowledge that no mine exists inside or outside of Havana harbor, nor is there any submarine defense of any kind. The report is absolutely false and ridiculous and it could only have originated in the minds of those persons anxious to incite the evil passions of both nations for their own miserable ends. I consider the very suggestion of such a thing an insult to Spain."

NO CREDITABLE NEWS.

Administration Has No Information as to Cause of Maine's Explosion.

Washington, Feb. 26.—In spite of the stories that come from unofficial sources in Havana as to sensational developments in connection with the work of divers in the Maine's hull, the administration remains firm in its statement that there is no creditable evidence one way or the other as to the cause of the disaster, and holds to its purpose to await the conclusion of the investigation now making by the court of inquiry. This position was emphasized at yesterday's cabinet meeting. The members without reservation frankly admitted that the subject of the loss of the Maine had been discussed, but said the government had received no information from Havana and had no intention of changing its policy until there was something of substance to warrant it.

Secretary Long has been under a heavy and almost constant strain ever since he was awakened in the middle of the night a week ago last Tuesday by the news of the loss of the Maine, and now that matters are, at least for the time being, in a quieter state he has withdrawn from the navy department or gone away for a few days rest, leaving Assistant Secretary Roosevelt to manage the department.

The latter has been thoroughly advised at every step of the secretary's policy of treatment of the Maine affair so that there is not likely to be any change in that respect caused by the temporary assumption of the duties of secretary by Mr. Roosevelt.

Since so much depends upon the report of the court of inquiry it may be interesting to note that so far Secretary Long does not know when to expect this important document, up to this time having heard nothing from any of the members on this point. He rather expected the court, which has complete power to work on its own lines, would wind up its work at Havana before leaving, so as to avoid the necessity for a return trip.

One member of the cabinet had a more definite opinion on the subject, expecting the receipt of the report from the court about the middle of next week.

At the Spanish legation a dispatch was received late yesterday from General Blanco referring to commercial questions and mentioning incidentally that no change of any kind has occurred in affairs at Havana. General Blanco's latter statement, it is believed at the legation, refers to the lack of definite and trustworthy news pending the private inquiries now being prosecuted by the American and Spanish authorities. In view of this attitude of those whose official position gives them the best opportunity for full information, Senator Da Bosc and his associates do not credit the reports of discoveries tending to establish the cause of the Maine disaster.

NEW YORK HARBOR.

Precautions Being Taken to Make East River Entrance Invulnerable.

New York, Feb. 26.—At Willet's point precaution is being taken to make the East river entrance to New York invulnerable. A so-called skirmish line of torpedoes is projected from the Willet's point shore across the channel to Fort Schuyler. The torpedoes will be anchored so close together that it may be made impossible for a hostile vessel to cross the line without being blown up. The engineers have arranged to have batteries located at each end of the line so that in case an apparatus was used by the enemy to sever the connecting wires and break the circuit, the torpedoes still could be exploded from either end of the line. The channel is already protected from Willet's point shore by the center by two groups of submarine mines. Each group of the mines consists of 22 torpedoes, 44 together containing 120 pounds of giant powder.

Cannot Be Exhausted.

Washington, Feb. 26.—The friends of the victims of the Maine disaster have discovered that they cannot have their bodies brought to this country in cases where they have already been interred. This is due to the fact that the Spanish laws forbid the exhumation of corpses until the expiration of the period of five years after burial. The prohibition had its origin in the fear of infection from contagious diseases.

BRIEF NOTES.

Fountaintown, Ind., is now a dry town. The Fulton steam boilerworks at Richmond, Ind., is said to be financially embarrassed.

Captain Henry Fryman of Bowling Green, O., a veteran in the late war, has committed suicide.

Burglars smashed in the show window of a Huddleston (Ky.) hardware store and secured eight revolvers.

Thomas Hannon, who shot and killed William Hall at Paducah, Ky., has been sent to jail on a murder charge.

The Ravens (O.) shoe company has shut down indefinitely. Over 100 employees were thrown out of work.

John H. B. Cox, near Westfield, Ind., was seriously injured in a runaway accident, several ribs being broken.

General Reuben Williams of Warsaw, Ind., will soon have completed a half century of active newspaper work.

A gray wolf has killed a number of sheep in the vicinity of Matthews, Ind., and a wolf-hunt is being organized.

L. O. F. lodges of Madison county, Ind., will endeavor to have Anderson chosen as the site of the proposed L. O. F. home.

The law office of E. L. Kasez, together with \$1,500 in books and \$1,800 in notes, was totally destroyed by fire at Painesville, Ky.

Levi Hoffstetter has been found guilty of burning John Patterson's barn in Brown county, Ind., and George Curtis has entered a plea of guilty.

BRADSTREET'S REVIEW.

Reports For Last Week Among the Best Received This Year.

New York, Feb. 26.—Bradstreet's today says: While business of a speculative nature has been quick to reflect the increasing strain in political affairs in reduced values and withdrawals or curtailment of activity in some lines, there is little to indicate that the volume of distributive trade has been reduced, and reports to Bradstreet this week, so far as the latter branch of business is concerned, are among the best received this year.

With few important exceptions the price situation is one of strength, while the enlarged demand for coarse grains is taken to reflect the turning of attention from higher priced cereals to those of a lower priced character.

The best report so far this year comes from the central west. Spring trade there is reported earlier than usual.

Kansas City, perhaps the most important market for agricultural implements in the country, reports the demand exceeding all records, and sales limited only by the inability to deliver orders. Business failures were 183, against 269 last week.

TO KEEP OUT SMALLPOX.

Prison Authorities Arranging to Quarantine Against Infected Districts.

Frankfort, Ky., Feb. 26.—The authorities of the penitentiary are about to quarantine against any prisoners that may be sent here from the smallpox district in Bell, Laurel and other southeastern Kentucky counties. If prisoners reach here and are presented at the prison gates the warden has no power to refuse to admit them, so it will be arranged for the Frankfort authorities to prevent prisoners from that district from entering the city. So if any sheriff from that section contemplates bringing prisoners here he had better take warning and keep them in jail till the smallpox scare is over.

MYSTERIOUS DEED.

Missouri Woman Purchases a Lot in the Middle of a River.

Hamilton, O., Feb. 26.—A deed about which there is mystery has been received by County Recorder Decker. The deed conveys lot 1,520 of the present plat of Hamilton to Caroline Wakefield, and is made by William H. Hutler and wife for a consideration of \$30,000. The indenture was subscribed to before a notary of public of Green county, Mo., where the purchaser lives. There is no such lot number, but according to the description given it would be located in the middle of the Miami river. The recorder will notify Caroline Wakefield of the value of her purchase.

SINKING IN THE MUD

The Wrecked Battleship Maine Is Slowly Settling.

PAYMASTER'S SAFE RECOVERED

Divers Working Hard to Recover the Remaining Bodies—General Lee Has Received No News of Importance From Washington—Board of Inquiry Still at Havana.

Havana, Feb. 26.—The wreck of the Maine is slowly but surely sinking into the mud. Before the hull could be raised it would be necessary to remove the guns and deck debris. For lack of proper appliances practically nothing in this line has been accomplished. Aside from the officers' and cabin effects, the salvage thus far has been pitifully small. The cloudy weather and rain made the work of the divers very unsatisfactory yesterday and very little was done. It is said that a hole has been made by the divers in one of the forward hatches, and it is hoped that a number of bodies will be recovered. The court of inquiry sat longer than usual yesterday and the six divers were examined more in detail than heretofore.

The time of the departure of the Mangrove with the court for Key West has not been determined. Captain Sampson says that it is doubtful if his vessel sails today.

No word has been received at the consular general's office from Walter B. Barker, the United States consul at Sagua La Grande, and it is believed that the reports of Mr. Barker's illness is untrue.

The paymaster's safe, with \$22,500 and his papers, has been taken from the wreck. Beyond this no statement is made as to the value and nature of the contents.

LABORING HARD TO RECOVER BODIES.

The complaint is still made that the electric lamps are of little use to the divers, as the light is faint and uncertain, and to hold them takes one of the diver's hands. They have assuredly proved of little value in the present investigation. So far as reports made public go, the workmen on the tug Right Arm, with the assistance of the naval divers, are laboring hard to recover the bodies under the hatch which led to fireproof platforms.

The Havana papers print long extracts from the American dailies, but of course only of delayed news. All the Americans are anxiously awaiting the arrival of mails.

Consul General Lee says he has received no news of importance from the state department nor has he been notified to expect the arrival of anyone of prominence. It is believed here that if any American of national reputation comes to Havana now it will be to study the situation for himself and not as an official commissioner.

There are six wounded left here, and all are reasonably certain of recovery except Holzer. Some difficulty will arise in removing them to the United States, for all have been exposed to contagious fevers, and the quarantine laws forbid their being taken direct to Key West. These regulations were disregarded in the case of the first lot of wounded taken there on the Olivette the day after the explosion, but only because of the extreme exigencies of the case.

Excitement in Mexico.

City of Mexico, Feb. 26.—Great excitement prevails here over the probability of a rupture between the United States and Spain. In case of a war the police would have their hands full in preventing collisions, as there are many Spanish and American residents here, some of whom are likely to pick a quarrel.

OHIO BRIBERY CASE.

Senate Committee Has a Telephone Manager Before It.

Columbus, O., Feb. 26.—The senate bribery investigation committee met yesterday and examined Manager Ross of the local telephone company with regard to calls made and answered in connection with Hanna headquarters in the Neal House when he was a candidate for United States senator. The only new development was that Major Dick settled the telephone bills. Not even names of conversationalists by telephone were secured.

GOEBEL ELECTION BILL.

On a Test The Measure Only Gets Forty-Nine Votes.

Frankfort, Ky., Feb. 26.—At the afternoon session of the house yesterday an attempt to abandon the regular order of business and force the passage of the Goebel election, or "force" bill, resulted in the loss of three friends of the measure. On a test vote 51 of the 100 members voted against the measure.

Senate and House.

Washington, Feb. 26.—The senate spent five hours yesterday debating Henry W. Corbett's right to a seat in the senate, then going into executive session before a vote was taken. The house continued consideration of the sundry civil appropriation bill. Mr. Berry succeeded in securing the adoption of an amendment increasing the appropriation for the Kentucky river from \$105,000 to \$350,000.

Were Attacked With Yellow Fever.

Pensacola, Fla., Feb. 26.—Captain Wilhelmson, of the Norwegian bark Herman, which has arrived at quarantine from Para, Brazil, reports that while the ship was at Para he sent six of his crew and his daughter ashore, they having been attacked with yellow fever, and that all of them remained in a hospital.

BUYING COAL.

Government Contracts For 300,000 Tons to be Delivered at Southern Points.

Pittsburg, Feb. 26.—That the United States government is preparing to meet any exigency that may rise by reason of the investigation of the Maine disaster is beyond dispute and the fact that the proper authorities have just placed contracts for the delivery of 300,000 tons of coal at the different coaling stations of the war vessels of this country in the West Indies and along the Florida and gulf coasts, is further evidence that the Washington authorities see trouble with Spain in sight and are getting ready to meet the issue squarely.

It was learned yesterday in Pittsburg, through an officer of one of the largest coal corporations doing business in this district, that the navy department had closed contracts with the incorporated firm of Gastner, Curran & Bullitt of Philadelphia for the delivery at Key West, Sand Keys, Dry Tortugas, Savannah, Charleston and Fortress Monroe of 250,000 tons of Pocahontas coal, and with the Rhodes & Beidler Coal company of Cleveland for the delivery of 50,000 tons of the Goshen coal of that company.

The stipulations of the contracts just placed are that the coal so ordered shall be delivered at the designated coaling stations as soon as it is possible to do so, and that the utmost secrecy be observed about the matter. It is understood the government is to pay a bonus to the miners and railroads if the contract is filled within a specified time.

TOBACCO WORKS BURNED.

Louisville Branch of the American Tobacco Company Destroyed.

Louisville, Feb. 26.—The mammoth plant of the Louisville branch of the American Tobacco company was destroyed by fire yesterday, entailing a loss of over \$350,000, fully covered by insurance. It was the most disastrous conflagration that has visited the Falls city in years. The plant occupied half a square, and at the time the fire broke out contained an army of employees, who rushed frantically from the building, only two sustaining probably fatal injuries. The injured are: George Tiesendorf, back injured and severe injuries about head and chest, probably die; William Semple, skull fractured, probably die; John Packham, both legs broken. Fourteen hundred men, women and children are thrown out of employment. The plant will be rebuilt at once.

W. C. T. U. BUILDING.

Trustees Decide to Appeal to the Public to Raise Funds.

Chicago, Feb. 26.—At a meeting of the Woman's Temple trustees in this city resolutions were adopted appealing to the general public of the country for assistance in raising the debt which hangs over the W. C. T. U. building. The trustees resolved that when they had secured for the national W. C. T. U. the capital stock of the Temple building it should be rechristened "Willard Temple," as a monument to Miss Frances E. Willard.

The resolution asks each newspaper of the country to present the appeal to its readers and to receive and acknowledge subscriptions for the fund to free the Temple from debt, the fund to be paid to the treasurer of the board of Temple trustees, G. B. Shaw, president of the American Trust and Savings bank, Chicago.

IN THE SHERIFF'S HANDS.

Ex-President Hayes' Old Home Levied Upon to Satisfy a Judgment.

Fremont, O., Feb. 26.—The home of the late ex-President R. P. Hayes, known as Spiegel Grove, has been levied upon by the county sheriff to satisfy a judgment obtained in common pleas court for \$5,000 damages, awarded Mrs. Addie M. Smith of this city. Mrs. Smith was given a judgment for injuries received in a runaway caused by a dog owned by the Hayes estate. The costs amount to \$1,019.

Good Prices For Fancy Horses.

Philadelphia, Feb. 26.—The sale of A. J. Drexel's driving outfit attracted a big crowd to Herkness bazaar yesterday. The bidding was spirited and the prices, as a general thing, were good. C. S. Jarvis paid the top price—\$1,300—for the well-mated team of chestnuts, Kid and Mayflower. William Deering gave \$705 for Lord London, a 5-year-old son of the great hackney horse Matchless of Londonboro.

Mrs. Whitney's Condition.

Albany, N. Y., Feb. 26.—There was a slight improvement reported in the condition of Mrs. William C. Whitney last evening. Dr. Ball has returned to New York. Mr. Whitney is not yet considered out of danger by her physicians.

WIRE NOTES.

New York banks report heavy imports of gold.

The Spanish battleship Vizcaya has sailed from New York for Havana.

An English syndicate has bought the famous Mexican silver mine Alvaro for \$425,000.

Adam Weaver shot and killed a constable and his deputy at Bursonville, Pa., who had been trying to arrest him for burglary.

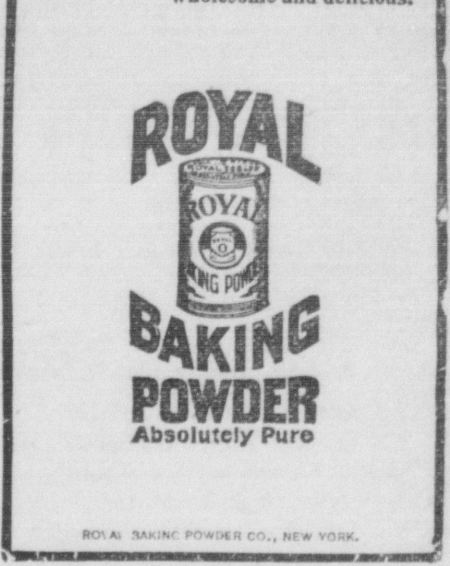

William R. Colt, colored, was hanged at Greensboro, Ala., for the brutal murder, three months ago, of John A. Singley, wife and child.

Ray Fry and Hugh Sewall, prominent young men of Jamestown, Pa., quarreled about a young woman, and Sewall stuck a knife into Fry's heart, killing him instantly.

The Interstate commerce commission has issued a book for public information, giving the names of all existing national, state and local commercial and agricultural associations and the various railway associations and names of their officers.

The British embassy at Washington desires the truth of the report sent from London relative to alleged letters purporting to have been written by Ambassador Pauncefote regarding the arbitration treaties.

Royal makes the food pure, wholesome and delicious.

JUDGE Samuel B. Voyles, democrat.

The jingoes have been trying to think but they are not used to such practice.

Lock over the list of announcements and you will at once be convinced that the republicans will have a first class city ticket.

ALLEN W. Clark is unquestionably the favorite candidate among all the democrats asking for a place on the state ticket.

The REPUBLICAN is in receipt of a well printed pamphlet containing a complete description of the various works of the Illinois Steel Company.

The silver push, headed by Chairman Jones, Butler and Towne, have issued their addresses to their clansmen. They are working in the interest of Bryan who is talking against the accumulation of wealth at \$500 per talk.

The fake newspaper reporter has never had a better field than the Maine disaster. He writes columns of matter that has little or no foundation. The "yellow journals" are really having a rich harvest.

JUDGE Ford has had to put up a mighty hard fight in Shelby county to prevent Judge Hackney from making a clean sweep. Is it possible that 16 to 1 is no stronger than that in old democratic Shelby?

The answer of the Hon. Henry U. Johnson to an offer of cavalry from Wayne county was eminently proper and wise: "It is the prayer of every thoughtful American that no occasion for the raising of a cavalry troop may arise."—Journal.

POLITICAL BREVITIES.

The date of the sixth congressional convention has been changed from April 25 to April 29.

Tomorrow is the day for the democratic bosses of Seymour to have another conference. They frequently "do politics" on Sunday.

Chairman Herney has announced that the state central committee will meet early in March to perfect a closer organization of the party throughout the state.

The "Keynote Sounder" is now deputy prosecutor and one of the city commissioners. No wonder he has decided not to be a candidate for prosecutor!

Lawyer Munden is yet a candidate for representative. He probably knows that the bosses right here at home are not for him, and to succeed he must first of all turn them down.

Another one of the democratic candidates for marshal was considering the advisability of withdrawing from the race and thus save further time and expense, but on the advice of a number of the committee he will stay with it and help pay the expense of the primary.

Could Raise 20,000.

"The state could raise twenty thousand and troops in twenty four hours after a declaration of war." This was a remark made by Adjutant General Gore yesterday, but the general scouted at the idea of there being a war. "There will be no war," said he, "for the very good reason that Spain will not fight." The adjutant general added, however, that in case there should be a brush with the Castilian it would find the state well prepared. "The militia was never in better shape than it is now," he said. "We could furnish three thousand well equipped and disciplined men within eight hours."

RULES GOVERNING REPUBLICAN PRIMARY.

The respective voting places will be as follows:

1st Ward polls at the city building.

2nd Ward polls at Miller & Massman's office Opera House block.

3rd Ward Polls at Hanlon's shop on High street.

4th Ward polls at H. P. Miller's shop on Walnut street.

5th Ward polls at Kreuger's shoe shop.

Polls will be opened promptly at 1 o'clock p. m. and close promptly at 8 o'clock p. m.

The primary will be held under the Australian ballot law as amended, the voter using a pencil instead of a stamp to make his X designating the persons he wishes to vote for. The tickets will contain the names of all the republican candidates for mayor, marshal, treasurer, clerk and city judge and also the names of all candidates for councilman in the respective wards.

The candidates receiving the greatest number of votes for the respective offices shall be declared the nominees of the party and be placed on the Republican ticket to be voted for at the City election, May 3, 1898.

Every candidate at the Primary thereby pledges himself to abide by the result and agrees to give all the nominees his hearty support.

W. H. BERRY, Chairman.

C. A. DAY, Secretary.

McClure's Magazine for March.

The March number of McClure's Magazine might be characterized in a sentence as a literary and pictorial exposition of the heroic side of real life. Such articles offer excellent opportunity for illustration; and the opportunity has been made the most of. Some of them are illustrated from special photographs; others from special life drawings. The fiction of the number comprises two good short stories by new writers and a stirring installment of Anthony Hope's new Zenda novel, "Rupert of Hentzau."

The more we see, the more we are convinced that an advertisement can not go too straight or directly to the mark at which it is aimed. There is the target in front of you, making sales. Every shot should be carefully and deliberately aimed at that, and the more this is realized, and every argument, fact and statement is judged from the point of view of its likelihood to make sales, the better and the more satisfactory will be the results.—X.

A REDUCTION ALL AMONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printout paper, and use in the same kind of gold and aristo platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

A MAD DOG

Creates More or Less Excitement in the Neighborhood Beyond Surprise.

A mad dog has been creating some excitement in the neighborhood between Surprise and Freetown. It was chased about in the neighborhood of Oak Grove school house, and from there through the country a distance of twelve miles. A number of citizens, headed by Jasper Lynch took part in the chase. Finally the dog was captured in the barn of Harmon Rhodert. A number of dogs and much stock is known to have been bitten by the dog.

March Ladies' Home Journal.

The March Ladies' Home Journal contains the last literary production of the late Alice Wellington Rollins. It is a humorous character sketch—"How Philip's Husband Made her Smile." The social life and customs of New Yorkers of a century ago are mirrored by Mrs. Burton Harrison, who writes of "When Fashion Graced the Bowers." Lillian Bell relates the amusing experiences of her yachting voyage on the English Channel, and a "Cabinet Member's Wife" gets closer and closer to Washington society. "In Fashionable Siberia," Thomas G. Allen, Jr., presents the bright, interesting side of life in that boundless Asiatic province, uprooting many erroneous ideas concerning it. "The Decay of the Sunday school" is critically analyzed by Edward Bok, who reveals the cause and prescribes the remedies. Pictorial features tell of "A Day in a Country School," and shows tantalizingly cozy views "Inside the Rooms of College Girls." By the Curtis Publishing Company, Philadelphia. One dollar per year; ten cents per copy.

Frank Sherwood was down town today the first time since he had his tussle with cholera morbus. He says he drove thirty miles after he was taken and never came so near dying in his life. After this when he goes out in the country he will take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him.—Missouri Valley (Iowa) Times. For sale by C. W. Milhous.

CHURCH NOTES.

The Presbyterian church was filled to its utmost capacity last night to hear Evangelist McKee. He delivered a fine sermon on Peter, as a type of the backslider. The successive steps in his downfall were self-confidence, the use of carnal weapons, following afar off and associating with the enemies of Christ. But like David, he knew how to repent and went out and wept bitterly, and finally became one of the foremost apostles. Let him that thinketh he standeth, take heed lest he fall; and if anyone has fallen like Peter, let him remember what God made of Peter by true repentance. There will be no service this evening. The services to be continued next week, beginning at 7:30. Come with us and we will do these good.

C. S. Bowl's, of the Monon, was in the city today.

G. W. Cochran, of the Pan Handle, was in the city last evening.

In the last five years the Big Four has expended nearly half a million dollars for interlocking plants alone.

Conductor John Everhart, who has been laying off account of sickness and death in his family, resumed his run today.

The Baltimore & Ohio Southwestern, which in 1897 recorded the poorest earnings in any year in the history of the railroad, begins this year well, showing old-time earnings in both freight and passenger traffic. The flood in the early summer of 1897 had much to do with the unfavorable exhibit, and demoralization in rates later in the year cut sharply into its revenue.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested. It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain, fiber, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial. At druggist. Trial bottle 10 cents.

TRAGEDY AT TIPTON

Young Man Shot Dead For Kicking Another's Wife.

HAS A RIGHT TO THE MONEY.

Father's Alleged Brutal Treatment of His Child—Bignamist Surrenders to the Authorities—Stoltz Murder Mystery—Sawmill Blown Up With Dynamite—Glee Club.

Tipton, Ind., Feb. 26.—Two young men named Herman and Jolly, aged 19 and 21, respectively, went to the home of James Close last night and became involved in a quarrel between themselves. Finally Mrs. Close interfered in the wordy war, when Jolly, it is alleged, kicked the woman in the stomach. Close had sat by and listened to the young men, but when his wife was attacked he jumped up and got his gun, shooting Jolly dead. Close was arrested and placed in jail. He refused to talk further than to say he did not intend to kill Jolly. None of the participants will say what caused the trouble.

GAVE HIMSELF UP.

James W. Miller, Charged With Bigamy, Surrenders to the Authorities. Columbus, Ind., Feb. 26.—September 15, 1895, James W. Miller and Charlotte Wyman were married in Belmont county, O., where they lived a month later they separated, and Miller settled near this city. September 15, 1896, just one year later, Miller married Nettie Griffin, and to them one child was born. When these facts became known a warrant was sworn out for the arrest of Miller for bigamy, having two wives. Miller surrendered to the officers, saying he had been informed that his former wife had procured a divorce. The grand jury meets Monday and will investigate the case.

ABUSIVE TREATMENT.

Arrest of Mark Harshbarger For Alleged Cruelties to His Family.

Treaty, Ind., Feb. 26.—Mark Harshbarger, residing near here, has been arrested on a warrant, sworn out by his sister-in-law, charging him with cruel treatment of his family. Miss Stroops makes affidavit that Harshbarger, a few days ago, seized his infant child and held it over a red-hot stove until its face was blistered. He denies the charge.

INTEREST IN GOOD ROADS.

Commissioners of Lawrence County Let a Contract For Thirty Miles.

Bedford, Ind., Feb. 26.—The board of commissioners of Lawrence county have let contracts for 30 miles of gravel roads in Marion and Guthrie townships. The outlay amounts to \$53,399.90. An election is being held in this city today to decide upon the building of other gravel roads. Farmers are taking great interest in good roads.

WITH DYNAMITE.

Sawmill Blown Up While Employees Were at Dinner.

Leavenworth, Ind., Feb. 26.—The O'Neil sawmill near here was blown up by dynamite while the employees were at dinner. There have been four dynamite outrages in this county during the last year. The guilty parties have never been arrested.

Has a Right to the Money.

Indianapolis, Feb. 26.—The supreme court has affirmed the case of Benjamin Starr, treasurer of the Richmond schools, against the state. Judgment was given the state for \$10,000, being the unexpended balance in the school treasury in July, 1893. The court holds that the amendatory law of 1895 did not affect suits already begun, and therefore the state has a right to the money.

Stoltz Murder Mystery.

Portland, Ind., Feb. 26.—Notwithstanding the offer of \$1,000 reward, no light has been thrown on the mystery surrounding the murder of Mrs. Louisa Stoltz, which occurred two weeks ago. Clew after clew has been taken up without developments.

"Red" Carmen's Victim.

Frankton, Ind., Feb. 26.—William Holly, the police officer who was shot and killed by burglar "Red" Carmen at Findlay, O., was formerly a Frankton citizen. Mr. Holly went from this city to Findlay.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the Republican and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its purity of this offer.

THE MAYOR OF LYNN.

Pain's Celery Compound Never Fails to Invigorate Him When Worn Out.

Mayor Ramsdell is again mayor of Lynn.

Two years ago he was elected by the combined People's party, Democratic and Citizens' Reform party. He was again nominated by acclamation by the Democrats to succeed himself as mayor of that busy modern city, and was again elected by a rousing majority last month. Mayor Ramsdell's present high position is the legitimate reward of his ability and his fearlessness in defending his opinions. He has never hesitated to declare his convictions in public, nor has he been slow to espouse the causes of the shoemakers and other wage earners. In 1894 he was candidate of the People's party for Congress. A hard worker, a conscientious official, Mayor Ramsdell has more than once been pushed to the limit of his strength. At such times of extreme nervous tension and overwork, he has saved himself from breaking down by taking Paine's Celery Compound.

Mayor Ramsdell's honest opinion of this great remedy cannot be mistaken by any one who reads his letter that follows: Gentlemen:—A previous experience with Paine's Celery Compound, as a restorer of exhausted energy, induced me recently to take it again, the many duties of the mayor's office having taxed my slight physical resources greatly. I made no mistake. In one week, I found my appetite improved, the feeling of weariness disappearing, and my nerves becoming steadier. Paine's Celery Compound has thus been a friend in time of need, and I like to say a word for a friend. Truly yours, WALTER L. RAMSDELL, Nov. 5, 1897. In every city, in business houses, banks, newspaper offices—wherever the friction of worry is wearing out the nerves and reducing the nutrition of the body, Paine's Celery Compound is proving its inestimable value. It invariably insures sound sleep, and thus gives the overstrung nerves their natural rest; it corrects a constipated habit that so commonly goes with sedentary occupations, and frees the blood of poisonous humors, that at some time or other develop into grave disease.

Chamberlain's Cough Remedy Always Proves Effectual.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effectual. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies and, like the writer, be benefited. —From the Glenville (W. RAILROAD RUMBLINGS

C. S. Bowl's, of the Monon, was in the city today.

G. W. Cochran, of the Pan Handle, was in the city last evening.

In the last five years the Big Four has expended nearly half a million dollars for interlocking plants alone.

Conductor John Everhart, who has been laying off account of sickness and death in his family, resumed his run today.

The Baltimore & Ohio Southwestern, which in 1897 recorded the poorest earnings in any year in the history of the railroad, begins this year well, showing old-time earnings in both freight and passenger traffic. The flood in the early summer of 1897 had much to do with the unfavorable exhibit, and demoralization in rates later in the year cut sharply into its revenue.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested. It will make you strong, revive you, refresh you, sustain you, make you fat, restore your color, make muscle, brain fibre, courage, endurance, energy, increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial. At druggist. Trial bottle 10 cents.

After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help, the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. TRAGEDY AT TIPTON

Young Man Shot Dead For Kicking Another's Wife.

HAS A RIGHT TO THE MONEY.

Father's Alleged Brutal Treatment of His Child—Bignamist Surrenders to the Authorities—Stoltz Murder Mystery—Sawmill Blown Up With Dynamite—Glee Club.

Tipton, Ind., Feb. 26.—Two young men named Herman and Jolly, aged 19 and 21, respectively, went to the home of James Close last night and became involved in a quarrel between themselves. Finally Mrs. Close interfered in the wordy war, when Jolly, it is alleged, kicked the woman in the stomach. Close had sat by and listened to the young men, but when his wife was attacked he jumped up and got his gun, shooting Jolly dead. Close was arrested and placed in jail. He refused to talk further than to say he did not intend to kill Jolly. None of the participants will say what caused the trouble.

GAVE HIMSELF UP.

James W. Miller, Charged With Bigamy, Surrenders to the Authorities. Columbus, Ind., Feb. 26.—September 15, 1895, James W. Miller and Charlotte Wyman were married in Belmont county, O., where they lived a month later they separated, and Miller settled near this city. September 15, 1896, just one year later, Miller married Nettie Griffin, and to them one child, was born. When these facts became known a warrant was sworn out for the arrest of Miller for bigamy, having two wives. Miller surrendered to the officers, saying he had been informed that his former wife had procured a divorce. The grand jury meets Monday and will investigate the case.

ABUSIVE TREATMENT.

Arrest of Mark Harshbarger For Alleged Cruelty to His Family. Treaty, Ind., Feb. 26.—Mark Harshbarger, residing near here, has been arrested on a warrant, sworn out by his sister-in-law, charging him with cruel treatment of his family. Miss Stoops makes affidavit that Harshbarger, a few days ago, seized his infant child and held it over a red-hot stove until its face was blistered. He denies the charge.

INTEREST IN GOOD ROADS.

Commissioners of Lawrence County Let a Contract For Thirty Miles.

Bedford, Ind., Feb. 26.—The board of commissioners of Lawrence county have let contracts for 30 miles of gravel roads in Marion and Guthrie townships. The outlay amounts to \$53,399.90. An election is being held in this city today to decide upon the building of other gravel roads. Farmers are taking great interest in good roads.

WITH DYNAMITE.

Sawmill Blown Up While Employees Were at Dinner.

Leavenworth, Ind., Feb. 26.—The O'Dell sawmill near here was blown up by dynamite while the employees were at dinner. There have been four dynamite outrages in this county during the last year. The guilty parties have never been arrested.

Has a Right to the Money.

Indianapolis, Feb. 26.—The supreme court has affirmed the case of Benjamin Starr, treasurer of the Richmond schools, against the state. Judgment was given the state for \$10,000, being the unpaid balance in the school treasury in July, 1893. The court holds that the amendatory law of 1895 did not affect suits already begun, and therefore the state has a right to the money.

Stoltz Murder Mystery.

Portland, Ind., Feb. 26.—Notwithstanding the offer of \$1,000 reward, no light has been thrown on the mystery surrounding the murder of Mrs. Louisa Stoltz, which occurred two weeks ago. Clew after clew has been taken up without developments.

"Red" Carmen's Victim.

Frankton, Ind., Feb. 26.—William Holly, the police officer who was shot and killed by Bangor "Red" Carmen at Findlay, O., was formerly a Frankton citizen. Mr. Holly went from this city to Findlay.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its punctuality of this offer.

THE MAYOR OF LYNN.

Pain's Celery Compound Never Fails to Invigorate Him When Worn Out.

Mayor Ramsdell is again mayor of Lynn.

Two years ago he was elected by the combined People's party, Democratic and Citizens' Reform party. He was again nominated by acclamation by the Democrats to succeed himself as mayor of that busy modern city, and was again elected by a rousing majority last month. Mayor Ramsdell's present high position is the legitimate reward of his ability and his fearlessness in defending his opinions. He has never hesitated to declare his convictions in public, nor has he been slow to espouse the cause of the shoemakers and other wage earners. In 1894 he was candidate of the People's party for Congress. A hard worker, a conscientious official, Mayor Ramsdell has more than once been pushed to the limit of his strength. At such times of extreme nervous tension and overwork, he has saved himself from breaking down by taking Paine's Celery Compound.

Mayor Ramsdell's honest opinion of this great remedy cannot be mistaken by any one who reads his letter that follows:

Wells & Richardson Co., Burlington, Vt.

Gentlemen:—A previous experience with Paine's Celery Compound, as a restorer of exhausted energy, induced me recently to take it again, the many duties of the mayor's office having taxed my slight physical resources greatly. I made no mistake. In one week, I found my appetite improved, the feeling of weariness disappearing, and my nerves becoming steadier. Paine's Celery Compound has thus been a friend in time of need, and I like to say a word for a friend.

Truly yours,
WALTER L. RAMSDELL,
Nov. 5, 1897.

In every city, in business houses, banks, newspaper offices—wherever the friction of worry is wearing out the nerves and reducing the nutrition of the body, Paine's Celery Compound is proving its inestimable value. It invariably insures sound sleep, and thus gives the overstrung nerves their natural rest; it corrects a constipated habit that so commonly goes with sedentary occupations, and tones the blood of poisonous humors, that at some time or other develop into grave disease.

FINALLY HEART TROUBLE.
Restored to Health by Dr. Miles' Nerve.

MR. EDWARD HARDY, the jolly manager of Sheppard Co's. great store at Braceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

COLD IN HEAD

When love
knocks at a woman's
heart he usually comes
in disguise. Doesn't
want it known
what he's up to.
If she knew all
about the little
rascal, would she
let him in? That's a question.
Women are apt to look upon
love and marriage as purely
a matter of sentiment and affection.
That is pretty nearly
right; yet there is a practical
side to it too, and the best way
to preserve the ideal aspect of
marriage and maternity is not
to forget the practical part of
it. A woman cannot be a thoroughly
happy wife and mother
unless the distinctive physical
organization of her sex is in a
healthy and vigorous condition.
The best friend that a woman
ever had is the "Favorite
Prescription" of Dr. R. V. Pierce,
Chief Consulting Physician of
the "Invalids' Hotel" and
Surgical Institute, Buffalo,
N. Y. The "Favorite Prescription" is
a perfect and infallible remedy for every
form of "female weakness." It cures by
restoring health and strength to the internal
organism, which cannot be reached by
"local applications;" thus the cure is radical,
complete and constitutional.

Dr. Pierce's eminent reputation as a physician
of wide learning; and his special
knowledge of the delicate and intricate
organization of women, accounts for the unparalleled
confidence, which women place in his
"Favorite Prescription," over every
other remedy. Its use obviates the necessity
of dreaded "examinations" and the
stereotyped "local treatments."

Dr. R. V. Pierce, Dear Sir—I suffered fourteen
years with female weakness, nervousness,
and general debility, trying everything I could find
to help me—all to no avail. I then heard of
Dr. Pierce's medicines and although I was thoroughly
discouraged, I thought I would try once
more to find relief. I took your "Golden Medical
Discovery" and "Favorite Prescription," and too
great praise cannot be given for the rapid relief
they gave me. I am now free from the former
troubles. Very sincerely yours,

(Mrs.) Mary J. Stewart.

NINE LIVES LOST.

Burning of a Tenementhouse at
Charleston, S. C.

Charleston, S. C., Feb. 26.—Nine lives were lost in a fearful fire which raged for a short time in Church street this morning. A policeman noticed big sparks flying from a tenementhouse. The officer found that a blaze was issuing from one of the windows on the first floor. The doors were broken open and the family on that floor were rushed out without any damage. Somebody yelled that a family of women were sleeping on the third floor.

The police rushed upstairs, and when they reached the top story the life-saving work was stopped by the flames, which seemed to be playing over the entire building. Screams from dying women were heard and Officer Bagby rushed in and pulled out three charred bodies. The quick work of the fire department checked the fire and it was soon under control, but not until nine lives on the third story had been lost. The dead: MRS. REBECCA KNICKMEYER AND SIX CHILDREN. ALBERT O'NEAL. CASWELL O'NEAL.

BRITISH FLAG.

Canadian Mounted Police Said to Have
Raised One Near Skagway.

Seattle, Wash., Feb. 26.—The schooner Noyo which has arrived here from Skagway, Alaska, brings news which, if true, will probably cause international complications. Parties arriving at Skagway before the Noyo left circled the report that the Canadian mounted police had raised the British flag at Summit lake, which is 20 miles from Skagway and 14 miles inside of the American boundary, as at present defined. Captain Lindquist of the Noyo says the report had not been verified when he left Skagway and that he places but little credence in it.

The Noyo also brings news of many deaths on the White pass resulting from cold and exposure. On Tuesday, Feb. 15, the bodies of five men who had died on the trail were brought to Skagway. It was impossible to learn the names of any of them. All died from what is called cerebral spinal meningitis, which is quite prevalent in Skagway and along the trail. It has its origin in exposure and a lack of sufficient clothing to withstand the severe cold.

The Noyo had as passengers three Dawsonites, who stopped at Juneau. They were James Brownell, Frank Laro and T. B. Filat. They are reported to have brought out about \$50,000 of gold dust and drafts from the interior. Stormy weather was encountered by the Noyo. Thirty-one vessels were passed bound for the north.

Test Didn't Apply.

Mrs. Northside was telling about the trouble Mrs. Manchester was having with her maids and was apparently taking much pleasure out of her difficulties. "You should not be glad because Mrs. Manchester is in trouble," said Mr. Northside. "You should remember that the Bible says, 'Rejoice not when thine enemy falleth.'"

"Oh, that's all right!" replied Mrs. Northside briskly. "Mrs. Manchester isn't an enemy at all; she is my dearest friend." — Pittsburgh Chronicle-Telegraph.

NO SUBMARINE MINES

Official Statement That Havana
Harbor Is Without Them.

EVIDENCE IS NOT CREDITABLE

One Way or the Other as to the Cause of the Maine Disaster, Says the Administration—Government on Contracts for 300,000 Tons of Coal for Southern Ports.

Washington, Feb. 26.—In view of the widely published report that the harbor of Havana contains a system of submarine mines, a statement around which has centered the chief public interest in connection with the disaster to the battleship Maine, Senator Du Bose, Spanish charge d'affaires at Washington, last night made public the following statement, which, coming from such authority, may be considered as an official denial:

"I wish to state on my own official knowledge that no mine exists inside or outside of Havana harbor, nor is there any submarine defense of any kind. The report is absolutely false and ridiculous and it could only have originated in the minds of those persons anxious to incite the evil passions of both nations for their own miserable ends. I consider the very suggestion of such a thing an insult to Spain."

NO CREDITABLE NEWS.

Administration Has No Information as to Cause of Maine's Explosion.

Washington, Feb. 26.—In spite of the stories that come from unofficial sources in Havana as to sensational developments in connection with the work of divers in the Maine's hull, the administration remains firm in its statement that there is no creditable evidence one way or the other as to the cause of the disaster, and holds to its purpose to await the conclusion of the investigation now making by the court of inquiry. This position was emphasized at yesterday's cabinet meeting. The members without reservation frankly admitted that the subject of the loss of the Maine had been discussed, but said the government had received no information from Havana and had no intention of changing its policy until there was something of substance to warrant it.

Secretary Long has been under a heavy and almost constant strain ever since he was awakened in the middle of the night a week ago last Tuesday by the news of the loss of the Maine, and now that matters are, at least for the time being, in a quieter state he has withdrawn from the navy department or gone away for a few days rest, leaving Assistant Secretary Roosevelt to manage the department.

The latter has been thoroughly advised at every step of the secretary's policy of treatment of the Maine affair so that there is not likely to be any change in that respect caused by the temporary assumption of the duties of secretary by Mr. Roosevelt.

Since so much depends upon the report of the court of inquiry it may be interesting to note that so far Secretary Long does not know when to expect this important document, up to this time having heard nothing from any of the members on this point. He rather expected the court, which has complete power to work on its own lines, would wind up its work at Havana before leaving, so as to avoid the necessity for a return trip.

One member of the cabinet had a more definite opinion on the subject, expecting the receipt of the report from the court about the middle of next week.

At the Spanish legation a dispatch was received last yesterday from General Blanco referring to commercial questions and mentioning incidentally that no change of any kind has occurred in affairs at Havana. General Blanco's latter statement, it is believed at the legation, refers to the lack of definite and trustworthy news pending the private inquiries now being prosecuted by the American and Spanish authorities. In view of this attitude of those whose official position gives them the best opportunity for full information, Senator Du Bose and his associates do not credit the reports of discoveries tending to establish the cause of the Maine disaster.

NEW YORK HARBOR.

Precautions Being Taken to Make East
River Entrance Invaluable.

New York, Feb. 25.—At Willet's point precaution is being taken to make the East river entrance to New York invulnerable. A so-called skirmish line of torpedoes is projected from the Willet's point shore across the channel to Fort Schuyler. The torpedoes will be anchored so close together that it may be made impossible for a hostile vessel to cross the line without being blown up. The engineers have arranged to have batteries located at each end of the line so that in case an apparatus was used by the enemy to sever the connecting wires and break the circuit, the torpedoes still could be exploded from either end of the line. The channel is already protected from Willet's point shore to the center by two groups of submarine mines. Each group of the mines consists of 22 torpedoes, 44 together containing 120 pounds of giant powder.

Cannot Be Exhausted.

Washington, Feb. 26.—The friends of the victims of the Maine disaster have discovered that they cannot have their bodies brought to this country in cases where they have already been interred. This is due to the fact that the Spanish laws forbid the exhumation of corpses until the expiration of the period of five years after burial. The prohibition had its origin in the fear of infection from contagious diseases.

BRIEF NOTES.

The Rivenna (O.) shoe company has shut down indefinitely. Over 100 employees were thrown out of work.

John H. B. Cox, near Westfield, Ind., was seriously injured in a runaway accident, several ribs being broken.

General Reuben Williams of Warsaw, Ind., will soon have completed a half century of active newspaper work.

A gray wolf has killed a number of sheep in the vicinity of Matthews, Ind., and a wolf-hunt is being organized.

I. O. O. F. lodges of Madison county, Ind., will endeavor to have Anderson chosen as the site of the proposed I. O. O. F. home.

The law office of R. L. Kazee, together with \$1,500 in books and \$1,800 in notes, was totally destroyed by fire at Paintsville, Ky.

Levi Hoffstetter has been found guilty of burning John Patterson's barn in Brown county, Ind., and George Curtis has entered a plea of guilty.

BRADSTREET'S REVIEW.

Reports For Last Week Among the Best
Received This Year.

New York, Feb. 26.—Bradstreet's today says: While business of a speculative nature has been quick to reflect the increasing strain in political affairs in reduced values and withdrawals or curtailment of activity in some lines, there is little to indicate that the volume of distributive trade has been reduced, and reports to Bradstreet's this week, so far as the latter branch of business is concerned, are among the best received this year.

With few important exceptions the price situation is one of strength, while the enlarged demand for coarse grains is taken to reflect the turning of attention from higher priced cereals to those of a lower priced character.

The best report as to the distribution of trade made so far this year comes from the central west. Spring trade there is reported earlier than usual.

Kansas City, perhaps the most important market for agricultural implements in the country, reports the demand exceeding all record, and sales limited only by the inability to deliver orders. Business failures were 133, against 269 last week.

TO KEEP OUT SMALLPOX.

Prison Authorities Arranging to Quarantine
Against Infected Districts.

Frankfort, Ky., Feb. 26.—The authorities of the penitentiary are about to quarantine against any prisoners that may be sent here from the smallpox district in Bell, Laurel and other southeastern Kentucky counties. If prisoners reach here and are presented at the prison gates the warden has no power to refuse to admit them, so it will be arranged for the Frankfort authorities to prevent prisoners from that district from entering the city. So if any shift-off from that section contemplates bringing prisoners here he had better take warning and keep them in jail till the smallpox case is over.

MYSTERIOUS DEED.

Missouri Woman Purchases a Lot in the
Middle of a River.

Hamilton, O., Feb. 26.—A deed about which there is mystery has been received by County Recorder Decker. The deed conveys lot 1,520 of the present plat of Hamilton to Caroline Wakefield, and is made by William H. Butler and wife for a consideration of \$20,000. The indenture was subscribed to before a notary of public of Green county, Mo., where the purchaser lives. There is no such lot number, but according to the description given it would be located in the middle of the Miami river. The recorder will notify Caroline Wakefield of the value of her purchase.

SINKING IN THE MUD

The Wrecked Battleship Maine Is
Slowly Settling.

PAYMASTER'S SAFE RECOVERED

Divers Working Hard to Recover the
Remainder of Bodies—General Lee Has
Received No News of Importance
From Washington—Board of
Inquiry Still at Havana.

Havana, Feb. 26.—The wreck of the Maine is slowly but surely sinking into the mud. Before the hull could be raised it would be necessary to remove the guns and deck debris. For lack of proper appliances practically nothing in this line has been accomplished. Aside from the officers' and cabin effects, the salvage thus far has been pitifully small. The cloudy weather and rain made the work of the divers very unsatisfactory yesterday and very little was done. It is said that a hole has been made by the divers in one of the forward hatches, and it is hoped that a number of bodies will be recovered. The court of inquiry sat longer than usual yesterday and the six divers were examined more in detail than heretofore.

The time of the departure of the Manzanillo with the court for Key West has not been determined. Captain Sampson says that it is doubtful if his vessel sails today.

No word has been received at the consular general's office from Walter B. Barker, the United States consul at Sagua La Grande, and it is believed that the reports of Mr. Barker's illness is untrue.

The paymaster's safe, with \$22,500 and his papers, has been taken from the wreck. Beyond this no statement is made as to the value and nature of the contents.

Laboring Hard to Recover Bodies.

The complaint is still made that the electric lamps are of little use to the divers, as the light is faint and uncertain, and to hold them takes one of the diver's hands. They have assuredly proved of little value in the present investigation. So far as reports made public go, the workmen on the tug Right Arm, with the assistance of the naval divers, are laboring hard to recover the bodies under the hatch which led to fireproof platforms.

The Havana papers print long extracts from the American dailies, but of course only of delayed news. All the Americans are anxiously awaiting the arrival of mails.

Consul General Lee says he has received no news of importance from the state department nor has he been notified to expect the arrival of anyone of prominence. It is believed here that if any American of national reputation comes to Havana now it will be to study the situation for himself and not as an official commissioner.

There are six wounded left here, and all are reasonably certain of recovery except Holzer. Some difficulty will arise in removing them to the United States, for all have been exposed to contagious fevers, and the quarantine laws forbid their being taken direct to Key West. These regulations were disregarded in the case of the first lot of wounded taken there on the Olivette the day after the explosion, but only because of the extreme exigencies of the case.

Excitement in Mexico.

City of Mexico, Feb. 26.—Great excitement prevails here over the probability of a rupture between the United States and Spain. In case of a war the police would have their hands full in preventing collisions, as there are many Spanish and American residents here, some of whom are likely to pick a quarrel.

OHIO BRIBERY CASE.

Senate Committee Has a Telephone Manager
Before It.

Columbus, O., Feb. 26.—The senate bribery investigation committee met yesterday and examined Manager Ross of the local telephone company with regard to calls made and answered in connection with Hanna headquarters in the Neal House when he was a candidate for United States senator. The only new development was that Major Dick settled the telephone bills. Not even names of conversationalists by telephone were secured.

GOEBEL ELECTION BILL.

On a Test the Measure Only Gets Forty-
Nine Votes.

Frankfort, Ky., Feb. 26.—At the afternoon session of the house yesterday an attempt to abandon the regular order of business and force the passage of the Goebel election, or "force" bill, resulted in the loss of three friends of the measure. On a test vote 51 of the 100 members voted against the measure.

Senate and House.

Washington, Feb. 26.—The senate spent five hours yesterday debating Henry W. Corbett's right to a seat in the senate, then going into executive session before a vote was taken. The house continued consideration of the sundry civil appropriation bill. Mr. Berry succeeded in securing the adoption of an amendment increasing the appropriation for the Kentucky river from \$105,000 to \$350,000.

The jingoes have been trying to think but they are not used to such practice.

Lock over the list of announcements and you will at once be convinced that the republicans will have a first class city ticket.

ALLEN W. Clark is unquestionably the favorite candidate among all the democrats asking for a place on the state ticket.

The Republican is in receipt of a well printed pamphlet containing a complete description of the various works of the Illinois Steel Company.

The silver push, headed by Chairman Jones, Butler and Towne, have issued their addresses to their clansmen. They are working in the interest of Bryan who is talking against the accumulation of wealth at \$500 per talk.

The fake newspaper reporter has never had a better field than the Maine despatcher. He writes columns of matter that has little or no foundation. The "yellow journals" are really having a rich harvest.

Judge Hord has had to put up a mighty hard fight in Shelby county to prevent Judge Hackney from making a clean sweep. Is it possible that 16 to 1 is no stronger than that in old democratic Shelby?

The answer of the Hon. Henry U. Johnson to an offer of cavalry from Wayne county was eminently proper and wise: "It is the prayer of every thoughtful American that no occasion for the raising of a cavalry troop may arise."—Journal.

Has the democratic party in its zeal for its new found faith of financial dishonor forgotten the tariff principles which have been its pole star during its entire existence? Neither Chairman Jones nor Mr. Bryan in their recent communications to the public, mapping out a policy and platform for the party which they profess to represent, has a word to say upon this subject.

POLITICAL BREVITIES.
The date of the sixth congressional convention has been changed from April 25 to April 29.

Tomorrow is the day for the democratic bosses of Seymour to have another conference. They frequently "do politics" on Sunday.

Chairman Herley has announced that the state central committee will meet early in March to perfect a closer organization of the party throughout the state.

The "Keynote Sounder" is now deputy prosecutor and one of the city commissioners. No wonder he has decided not to be a candidate for prosecutor!

Lawyer Munden is yet a candidate for representative. He probably knows that the bosses right here at home are not for him, and to succeed he must be first of all turn them down.

Another one of the democratic candidates for marshal was considering the advisability of withdrawing from the race and thus save further time and expense, but on the advice of a number of the committee he will stay with it and help pay the expense of the primary.

Could Raise 20,000.
"The state could raise twenty thousand and troops in twenty four hours after a declaration of war." This was a remark made by Adjutant General Gore yesterday, but the general scouted at the idea of there being a war. "There will be no war," said he, "for the very good reason that Spain will not fight." The adjutant general added, however, that in case there should be a brush with the Castilian it would find the state well prepared. "The militia was never in better shape than it is now," he said. "We could furnish three thousand well equipped and disciplined men within eight hours."

RULES GOVERNING REPUBLICAN PRIMARY.

The respective voting places will be as follows:
1st Ward polls at the city building.
2nd Ward polls at Miller & Massman's office Opera House block.
3rd Ward Polls at Hanlon's shop on High street.
4th Ward polls at H. P. Miller's shop on Walnut street.
5th Ward polls at Kreuger's shoe shop.

Polls will be opened promptly at 1 o'clock p. m. and close promptly at 8 o'clock p. m.

The primary will be held under the Australian ballot law as amended, the voter using a pencil instead of a stamp to make his X designating the persons he wishes to vote for. The tickets will contain the names of all the republican candidates for mayor, marshal, treasurer, clerk and city judge, and also the names of all candidates for councilman in the respective wards.

The candidates receiving the greatest number of votes for the respective offices shall be declared the nominee of the party and be placed on the Republican ticket to be voted for at the City election, May 3, 1898.

Every candidate at the Primary thereby pledges himself to abide by the result and agrees to give all the nominees his hearty support.

McClure's Magazine for March.
The March number of McClure's Magazine might be characterized in a sentence as a literary and pictorial exposition of the heroic side of real life. Such articles offer excellent opportunity for illustration; and the opportunity has been made the most of. Some of them are illustrated from special photographs; others from special life drawings. The fiction of the number comprises two good short stories by new writers and a stirring installment of Anthony Hope's new Zenda novel, "Rupert of Hentzau."

The S. S. McClure Co, New York City.

The more we see, the more we are convinced that an advertisement can not go too straight or directly to the mark at which it is aimed. There is the target in front of you, making sales. Every shot should be carefully and deliberately aimed at that, and the more this is realized, and every argument, fact and statement is judged from the point of view of its likelihood to make sales, the better and the more satisfactory will be the results.—X.

Wholesale Dismissals.
Fort Wayne, Feb. 26.—For two weeks the Nickelplate road has been making wholesale dismissals east of Cleveland. It was thought the Fort Wayne division would escape, but yesterday orders came from headquarters to discharge one conductor and 15 brakemen, and it is said more will follow. In every case the charge is violating the rule prohibiting employees from entering or frequenting saloons.

March Ladies' Home Journal. The March Ladies' Home Journal contains the last literary production of the late Alice Wellington Rollins. It is a humorous character sketch—"How Philip's Husband Made her Smile."

The social life and customs of New Yorkers of a century ago are mirrored by Mrs. Burton Harrison, who writes of "When Fashion Graced the Bowers." Lilian Bell relates the amusing experiences of her yachting voyage on the English Channel, and a "Cabinet Member's Wife" gets closer and closer to Washington society. "In Fashionable Siberia," Thomas G. Allen, Jr., presents the bright, interesting side of life in that boundless Asiatic province, uprooting many erroneous ideas concerning it. "The Decay of the Sunday School" is critically analyzed by Edward Bok, who reveals the cause and prescribes the remedies. Pictorial features tell of "A Day in a Country School," and shows tantalizingly cozy views "Inside the Rooms of College Girls."

Frank Sherwood was down town today the first time since he had his tussle with cholera morbus. He says he drove thirty miles after he was taken and never came so near dying in his life. After this when he goes out in the country he will take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him.—Missouri Valley (Iowa) Times. For sale by C. W. Milhaus.

CHURCH NOTES. The Presbyterian church was filled to its utmost capacity last night to hear Evangelist McKee. He delivered a fine sermon on Peter, as a type of the backslider. The successive steps in his downfall were self-confidence, the use of carnal weapons, following afar off and associating with the enemies of Christ. But like David, he knew how to repent and went out and wept bitterly, and finally became one of the foremost apostles. Let him that thinketh he standeth, take heed lest he fall; and if anyone has fallen like Peter, let him remember what God made of Peter by true repentance. There will be no service this evening. The services to be continued next week, beginning at 7:30. Come with us and we will do these good.

Baby Mine!

Every mother feels an indescribable dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger of the ordeal make its anticipation one of misery.

MOTHER'S FRIEND

is the remedy which relieves women of the great pain and suffering incident to maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is removed by its use. Those who use this remedy are no longer dependent or gloomy; nervousness, nausea and other distressing conditions are avoided, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. It is a blessing to woman.

The Baltimore & Ohio Southwestern, which in 1897 recorded the poorest earnings in any year in the history of the railroad, begins this year well, showing old-time earnings in both freight and passenger traffic.

The flood in the early summer of 1897 had much to do with the unfavorable exhibit, and demoralization in rates later in the year cut sharply into its revenue.

Food, undigested, is poison. Digested, it is life and strength. Millions of us suffer from indigestion, but we often don't know it. We think it is something else. Even doctors often mistake the symptoms.

Pale, thin people, who are overworked who need strength, who seem in want of proper food, should take Shaker Digestive Cordial. It is astonishing what food will do, when properly digested.

It will make you strong, revive you, refresh you, sustain you, make you fit to restore your color, make muscle, brain fibre, courage, endurance, energy increase your power to throw off disease and keep you healthy and happy.

Indigestion does just the opposite, but indigestion can be cured and prevented with Shaker Digestive Cordial. At druggist. Trial bottle 10 cents.

TRAGEDY AT TIPTON

Young Man Shot Dead For Kicking Another's Wife.

HAS A RIGHT TO THE MONEY.

Father's Alleged Brutal Treatment of His Child—Bigamist Surrenders to the Authorities—Stoltz Murder Mystery—Sawmill Blown Up With Dynamite—Glee Club.

Tipton, Ind., Feb. 26.—Two young men named Herman and Jolly, aged 19 and 21, respectively, went to the home of James Close last night and became involved in a quarrel between themselves. Finally Mrs. Close interfered in the wordy war, when Jolly, it is alleged, kicked the woman in the stomach. Close had sat by and listened to the young men, but when his wife was attacked he jumped up and got his gun, shooting Jolly dead. Close was arrested and placed in jail. He refused to talk further than to say he did not intend to kill Jolly. None of the participants will say what caused the trouble.

GAVE HIMSELF UP. James W. Miller, Charged With Bigamy, Surrenders to the Authorities. Columbus, Ind., Feb. 26.—September 15, 1895, James W. Miller and Charlotte Wyman were married in Belmont county, O., where they lived a month later they separated, and Miller settled near this city. September 15, 1896, just one year later, Miller married Nettie Griffin, and to them one child was born. When these facts became known a warrant was sworn out for the arrest of Miller for bigamy, having two wives. Miller surrendered to the officers, saying he had been informed that his former wife had procured a divorce. The grand jury meets Monday and will investigate the case.

ABUSIVE TREATMENT. Arrest of Mark Harshbarger For Alleged Cruelties to His Family. Treaty, Ind., Feb. 26.—Mark Harshbarger, residing near here, has been arrested on a warrant, sworn out by his sister-in-law, charging him with cruel treatment of his family. Miss Stroops makes affidavit that Harshbarger, a few days ago, seized his infant child and held it over a red-hot stove until its face was blistered. He denies the charge.

INTEREST IN GOOD ROADS. Commissioners of Lawrence County Let a Contract For Thirty Miles. Bedford, Ind., Feb. 26.—The board of commissioners of Lawrence county have let contracts for 30 miles of gravel roads in Marion and Guthrie townships. The outlay amounts to \$53,399.90. An election is being held in this city today to decide upon the building of other gravel roads. Farmers are taking great interest in good roads.

WITH DYNAMITE. Sawmill Blown Up While Employees Were at Dinner. Leavenworth, Ind., Feb. 26.—The O'Dell sawmill near here was blown up by dynamite while the employees were at dinner. There have been four dynamite outrages in this county during the last year. The guilty parties have never been arrested.

Has a Right to the Money. Indianapolis, Feb. 26.—The supreme court has affirmed the case of Benjamin Starr, treasurer of the Richmond schools, against the state. Judgment was given the state for \$10,000, being the unpaid balance in the school treasury in July, 1893. The court holds that the amendatory law of 1895 did not affect suits already begun, and therefore the state has a right to the money.

Stoltz Murder Mystery. Portland, Ind., Feb. 26.—Notwithstanding the offer of \$1,000 reward, no light has been thrown on the mystery surrounding the murder of Mrs. Louisa Stoltz, which occurred two weeks ago. Clew after clew has been taken up without developments.

"Red" Carmen's Victim. Frankton, Ind., Feb. 26.—William Holly, the police officer who was shot and killed by burglar "Red" Carmen at Findlay, O., was formerly a Frankton citizen. Mr. Holly went from this city to Findlay.

ONE OF TWO WAYS. The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE. Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its pinnance of this offer.

THE MAYOR OF LYNN.

Pain's Celery Compound Never Fails to Invigorate Him When Worn Out.

Mayor Ramsdell is again mayor of Lynn.

Two years ago he was elected by the combined People's party, Democratic and Citizens' Reform party. He was again nominated by acclamation by the Democrats to succeed himself as mayor of that busy modern city, and was again elected by a rousing majority last month.

Mayor Ramsdell's present high position is the legitimate reward of his ability and his fearlessness in defending his opinions. He has never hesitated to declare his convictions in public, nor has he been slow to espouse the cause of the shoemakers and other wage earners. In 1894 he was candidate of the People's party for Congress. A hard worker, a conscientious official, Mayor Ramsdell has more than once been pushed to the limit of his strength. At such times of extreme nervous tension and overwork, he has saved himself from breaking down by taking Paine's celery compound.

Mayor Ramsdell's honest opinion of this great remedy cannot be mistaken by anyone who reads his letter that follows:

WALTER L. RAMSDELL, Nov. 5, 1897.

In every city, in business houses, banks, newspaper offices—wherever the friction of worry is wearing out the nerves and reducing the nutrition of the body, Paine's celery compound is proving its inestimable value. It invariably insures sound sleep, and thus gives the overstrung nerves their natural rest; it corrects a constipated habit that so commonly goes with sedentary occupations, and tones the blood of poisonous humors, that at some time or other develop into grave disease.

Truly yours, WALTER L. RAMSDELL, Nov. 5, 1897.
